

Hearing God ; Leading God's People

Circuit Stewards

Over an 18 month period Circuit Stewards are being invited to gather with one another twice to reflect personally, with others and with God on their role, and to explore avenues of growth in leadership and discipleship within that role.

The first session starts with a Bible study of Exodus 3 & 4.

“When does your role feel like Holy Ground? Why?”

There is time to reflect for yourself and to talk in small groups.

Hearing God ; Leading God's People

Circuit Stewards

Together we explore...

What are the joys, opportunities and gifts of your role?
What are the threats, sadness and burdens of your role?

These conversations lead us to consider:

- How to promote learning and developing church life using the extended network.
- How to increase cross Circuit boundaries and get maximum value out of limited resources.
- How to grow in leadership and discipleship.
- Meeting our own learning & development needs and leading cultural change in a Church environment.

Circuit Stewards are invited to lead a similar session with church stewards from the churches in their circuit, bringing back the learning to the second session and then explore together how to grow in Leadership and Discipleship.
